NUMBER 96

BRITISH OFFICIALS SAY HUN CLAIMS HAVE MERIT

**BUT IT IS A MERE IRREGULARITY AND
NOT BASED ON PRINCIPLES, WHICH
MAKES ACTS INJUSTICE**

LLOYD GEORGE SPEAKS ON SUBJECT

London, Nov. 20.—British government officials today privately admitted the logic of the German claim that allocation of her colonies by the Supreme Council instead of by the League of Nations, with Germany not a member thereof, is contrary to the treaty of Versailles. They declared, however, they could not see any chance of the League reversing the Council's action because of the embarrassment which would result from the Allied members of the League sitting in judgment over the heads of their governments. On the other hand some officials expressed the belief that Lord Cecil and others would seize the opportunity to "torpedo" the Supreme Council and discredit the powers they declare that have been taken upon itself.

In an interview Premier Lloyd George declared "Britain is ready to touch elbows with France in their demand for repatriation of Germany" but he added "first let us fix the amount of the German debt. We have fought and won against a common enemy. We cannot blot out the past, to which my heart is attached, while arranging peace."

Incidentally the United States is expected soon to be involved in the repatriation of oil fields. Although she is not a member of the League it is pointed out that she is vitally interested in the action of the League and is able to exert considerable pressure on the members.

THIRTY LEAGUE MEMBERS SUPPORT FRANCE IN BARRING OUT GERMANY

PARIS, Nov. 20.—The Geneva correspondent of the Matin reported today that more than 30 members will support France in her opposition to admitting Germany to the League of Nations at this time should the question come up for a vote. The big powers who will not support her are Great Britain, Norway, Holland and Argentina, the Geneva correspondent said. He declared that the Japanese delegates had received specific instructions today to support France.

HARD COAL WAGE DISPUTE WILL BE REFERRED TO SECRETARY WILSON

PHILADELPHIA, Nov. 20.—Phillip Murray, international vice president of the United Mine Workers of America, planned to lay before Secretary of Labor Wilson in Washington the wage dispute involving the anthracite miners. The decision to appeal to the government was made by Murray following the disagreement between the miners committee and that of the operators over the interpretation placed upon President Wilson's telegram following the conference. In addition to the minimum wage of \$3 a day the miners ask an increase of 13 per cent, to compare with the present scale of the bituminous miners and an eight hour day. The present minimum wage is \$4.20 a day. Harry Gorman, president of the Conciliation Board, said that body would meet Monday afternoon to settle the eight hour day question.

PRESIDENT ELECT HAS BEAUTIFUL WEATHER FOR TRIP TO CANAL ZONE

Aboard the steamer Parismina by way of Wireless to New Orleans, Nov. 20.—Carrying President-elect Harding to the Panama canal zone for a vacation trip the liner Parismina was making record time today. More than 13 knots. The steamer today was enjoying the Caribbean Sea. Harding has spent most of his time on deck ever since leaving New Orleans. He walked up and down puffing his pipe and talking with passengers. The weather today was moderate. As the vessel was crossing the Yucatan channel Mrs. Harding came on deck for the first time and talked with the President-elect. Harding is due at Cristobal early Tuesday.

NINE PERISH IN TENEMENT FIRE IN HARLEM DISTRICT OF NEW YORK CITY

NEW YORK, Nov. 20.—Nine persons were killed today in a fire which destroyed a tenement house in Harlem. The ruins were being searched for the charred remains of children.

PENN TOWNSHIP RESIDENT BURIED

James McKimrick, an aged and highly respected resident of Penn township, who died on Wednesday last, was buried at Grampian this morning at 10 o'clock. The deceased was past 80 years of age and spent about all his life in Penn township.

Rule to Attain Old Age.
Sir George Reid said: "I have aimed at health and happiness, and when confronted by a formidable obstacle I have first tried to knock it over; failing in this, to get around it; if not to get under it; and if these maneuvers failed I have been content to lie down in its grateful shade, landing it as a beautiful blessing in disguise."

The Melancholy Days Have Come

67 HAD MILLION DOLLAR INCOMES DURING 1918

**Only Seven More Than 1914
And Fifty Per Cent. Less
Than in Previous Year**

PAID 88 MILLIONS IN TAX

WASHINGTON, Nov. 18.—Statistics on income returns for the calendar year ending December 31, 1918, made public tonight, show but sixty-seven returns by individuals with incomes of \$1,000,000 and over, a drop of seventy-four such incomes from the previous year, and only seven more than in 1914, the year the European war broke out, when the country had sixty such millionaires. It was in 1915 that the number of men with million dollar incomes began climbing. They just doubled the previous year making a total of 120. In 1916, before this country entered the war, the number grew to 206. It dropped in 1917, the first year of Uncle Sam's participation in the war to 141.

Statistics are not yet available for the number of such millionaires in the calendar year 1919, but at the same rate of decrease as in 1918 they would be wiped out. This is the first official compilation of all incomes.

\$1,127,721,835 Tax Collected
The total net income of individuals in 1918 was \$15,924,039,355. The tax amounted to \$1,127,721,835. The 67 men with million dollar incomes on whom rates were higher than other classes, paid a total in taxes of \$88,885,249.

There were 9,996 whose incomes were between \$50,000 and \$100,000. This class paid more than any other, or \$147,428,655. In 1917 there were 12,439 making incomes of from \$50,000 to \$100,000, and in 1916 there were 10,452.

Returns of income of from \$500,000 to \$1,000,000 numbered 178, those from \$300,000 to \$500,000 382, 1,514 from \$150,000 to \$300,000, 2,358 from \$100,000 to \$150,000, 9,996 from \$50,000 to \$100,000, 28,542 from \$25,000 to \$50,000, 118,569 from \$10,000 to \$25,000, 319,356 from \$5,000 to \$10,000, 932,236 from \$3,000 to \$5,000, 1,496,878 from \$2,000 to \$3,000, and 1,516,938 from \$1,000 to \$2,000.

The total income represented by the returns according to classes follows:

\$ 1000 to \$ 2000	2,232,354,577
2000 to 3000	2,626,824,833
3000 to 5000	3,355,219,007
5000 to 10000	3,145,680,916
10000 to 25000	1,736,548,050
25000 to 50000	978,042,710
50000 to 100000	679,720,737
100000 to 150000	283,106,740
150000 to 300000	305,024,817
300000 to 500000	144,545,428
500000 to 1000000	119,075,548
1000000 and over	137,486,592

WHY RESPOND TO THE FOURTH RED CROSS ROLL CALL

The spirit of the American Red Cross has always been and still is, largely volunteer. It is an actual fact that only three cents on every dollar given, is used for organization purposes. The fifty percent of roll call, which each chapter is required to send in to National Headquarters is used mainly for three purposes.

Foreign Service
Disaster Relief
Training and Scholarships.

The fifty cents which comes into the chapter treasury, is for chapter expenses along the line of service chosen by the members. Outside of the secretary and nurses, none of the officials or workers in the Clearfield Chapter are paid.

Expenses of Division Headquarters in Phila. are paid out of

HOSPITAL AUXILIARY PLANNING ANNUAL THANKSGIVING DONATION

The Woman's Hospital Auxiliary are asking for their usual Thanksgiving offering.

Contributions of cash, coal, vegetables, fruits, groceries, jellies canned goods, etc., will be gratefully received.

Donations may be left on Monday and Tuesday, November 22nd and 23rd at the following named residences:

Mrs. H. B. Powell, S. 2nd St.

Mrs. James Kerr, Pine St.

Mrs. Richard Gilbert, Turnpike Ave.

Mrs. J. M. Quigley, East End.

Mrs. Fred Irwin, Walnut St.

Mrs. S. J. Waterworth, 2nd St.

Mrs. Harry Boulton, Turnpike Ave.

Checks or gifts of money should be sent to Mrs. Blanch Biddle, 1st St., treasurer of Woman's Auxiliary.

Parents are requested to see that their children take some small offering to school on Tuesday, November 23rd. Even an apple or potato will be gladly received and will help in the support of a worthy institution.

HERE IS REAL CHARITY

The members of the Children's Aid Society wish to thank the following young ladies for a donation of \$25 which they presented to be used for improvements at the Children's Home:

Catherine Waterworth

Evelyn Dimeling

Elizabeth Dowler

Lenore Piper

Ruth Patterson

Audrey Hyde

Kathryn Thorn

They also wish to thank the Clearfield Aerie F. O. E. who generously offered to provide the entire bill of fare for the Thanksgiving dinner that will be served to the thirty-two little children on Thursday.

NOON STOCKS

NEW YORK, Nov. 20.—Twelve o'clock prices on the stock exchange today were: American Locomotive 81, American Steel Foundry 26, B. & O. 36½, Bethlehem Steel B. 52½, Central Leather 36½, Crucible 86, General Electric 122, General Motors 28½, 106, 740, 12½, Midvale 31½, Penna. 40, Republic Steel 64½, St. Clair 25½, United States Steel 80½, United States steel, preferred 105½, Westinghouse 40½.

GRANSTNN LAD IS SHOT TO DEATH HUNTERS BLAMED

SCRANTON, Nov. 20.—Thirteen year old Harold Pollock was shot to death today while driving cows to pasture on a farm near here. County and borough officials think that he was shot either by a small boy or by two hunters who were seen near the scene some time before the shooting. Several bullets entered his left chest. He died ten minutes after he was shot as many of the bullets entered his heart and lungs.

PITTSBURGH GETS \$500 A DAY ADVICE OF GOETHALS

**"LET IT SLIDE UNTIL IT STOPS AND THEN
SHOVEL IT OFF" SAYS THE MAN
WHO BUILT PANAMA CANAL**

NO WAY TO STOP THE AVALANCHE

Pittsburgh, Nov. 20.—Disappointment was shown by General Geo. W. Goethals, builder of the Panama Canal, when he viewed the land slide over Bigelow Boulevard to the Pennsylvania railroad tracks. Goethals characterized the slide as ordinary and said the best remedy was to "let it slide until it stopped and then shovel it off."

Goethals was summoned here by City Council when local engineers were unable to stop the avalanche which practically covered the Penna. tracks and destroyed the Bigelow Boulevard, Pittsburgh's main automobile drive. The cost of rebuilding the boulevard will reach into millions. Goethals charged \$500 a day for his advice.

FORMER KAISERIN IMPROVED AFTER ANOTHER BAD ATTACK FROM HEART

DORNE, HOLLAND, Nov. 20.—The former German Kaiserin's condition has improved to such an extent that the former Crown Prince has returned to Weigeln it was learned today. It was stated, however, that she is still seriously ill as a result of a heart attack.

MAHLON GARLAND, CONGRESSMAN FOUND DEAD

Mahlon M. Garland, of Pittsburgh, congressman-at-large since 1915, and a former vice president of the American Federation of Labor, was found dead at 5 o'clock yesterday afternoon in his Washington residence. Two physicians summoned after the discovery of the body by his secretary, pronounced death due to heart disease. He was aged 64.

Mr. Garland had been in the Capitol only two days since the national elections two weeks ago. He went there Wednesday in anticipation of the short session of Congress. He failed to appear at his office yesterday morning, and his secretary, Miss Florence B. Wells, accompanied by Mrs. Julia Grant Brooks, secretary of Representative John Reber of Pennsylvania, went to the Garland residence about noon. They found him resting. He had been troubled by his heart, he said, but refused to let them call a physician. They returned to the Capitol.

Secretary Finds Body

About 5 o'clock they returned to his residence. When their knock was unanswered they entered and called, but receiving no response, they made a search of the house. In the bathroom they found the body. Mr. Garland had apparently pitched forward across the tub.

Representative Garland was living alone. His wife died several years ago, and his only child, Mrs. Grace Gilkinson, of Pittsburgh is in Europe.

Champion of Labor

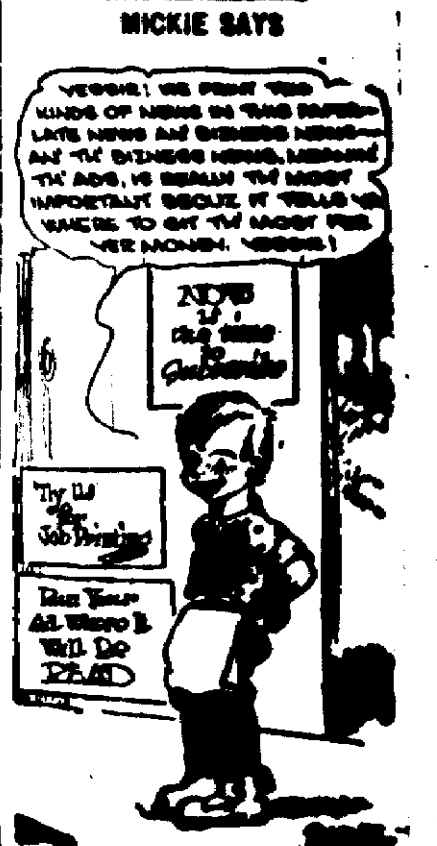

Representative Garland was a champion of labor. His ancestry on both sides having been iron and steel workers, he naturally drifted into the rolling mill. When age permitted he joined the Amalgamated Association of Iron, Steel and Tin Workers passing through the local office of the organization to the presidency to which he was re-elected six successive years. He resigned in 1909 to take the appointment by President McKinley as United States collector of customs in Pittsburgh. He was subsequently appointed to the position by President Roosevelt in 1902 and by President Taft in 1910. On March 4, 1915, he assumed his duties in the Sixty-fourth congress as representative-at-large, resigning as customs collector. He was re-elected to the sixty-fifth, sixty-sixth and two weeks ago to the sixty-seventh congress. He was chairman of the House Committee on Mines and Mining.

REV. McCURDY IMPROVING
Rev. John P. McCurdy, who has been quite ill at his home on Cherry street for the past week, is now improving satisfactorily which will be good news to Rev. McCurdy's host of friends in this section. If the improvement of the past day or two continues Rev. McCurdy hopes to be able to resume his duties as pastor of the Woodland M. E. church by Sunday, November 28th.

Hand Kissing is Old Custom.
Amongst the Romans the custom of kissing hands was very common; people desiring a favor of anyone, even if he was an equal, would come down, and thus salute him before making the request, though usually equals gave each other their hands or shoulders. Soldiers in the army kissed the hands of their generals to show respect; the same honor was given to the consuls and praetors.

"Salt River."
"Salt river," as commonly used, refers to an imaginary river up which defeated politicians and political parties are supposed to be sent to oblivion. The phrase "to row up Salt river" had its origin in a small stream of that name in Kentucky, the passage of which is made difficult and laborious by its tortuous course and abundance of snags and bars.

Duty to Posterity.
We should live and labor in our time so that what came to us as seed, may go to the next generation as blossom, and what came to us as blossom, may go to them as fruit.—Ezrahoan

Why Respond to the Fourth Red Cross Roll Call.

Continued from Page one

Interest accruing on Red Cross Permanent Fund. This fund is made up by the Sustaining and Life Memberships at \$50 and \$100, respectively.

The Red Cross Service typifies the Red Cross of Peace. Every American community needs some form of Red Cross service—Why?

Because:—

Otherwise the Red Cross will become extinct in times of peace. As an organization it is prepared to administer to the physical, moral and mental needs of any community. In time of disaster it is the first to send aid to a stricken community. Why not foster and use such a wonderful instrument for good, rather than let it die out for want of support.

Hence the Roll Call for renewed membership.

If Red Cross service is to endure, we need not so much the large contributions from a few generous donors, but that ALL shall be PAYING MEMBERS of the Red Cross, participating in its service. Thus it will continue to be the very spirit of America—a service of the community, by the community, for the community. The Roll Call needs YOU. Will you respond?

GETTING BACK TO NORMAL

Richard Spillane, editor of the business section of the Philadelphia Public Ledger, discussing the disposition of certain retailers in some sections of the country to withhold orders for spring goods, points out that such a policy, if generally followed, would result in materially decreasing production, and then goes on to say:

This is a whale of a country. Its consumptive capacity is enormous. To stop production would be to reduce consumption, because it would take from labor the wages spent for food and furnishings. Besides, it would serve to bring about another era of inflated prices later, for if orders are held from the manufacturers until distributors generally are sold out everybody will want goods at the same time and, figuratively, fall over each other in pressing their demands.

Everybody will benefit by keeping up production.

Everybody would be hurt by shutting off production.

Then, why not do the obviously right thing?

At this particular period it would be a grave mistake to stop the wheels of industry. While we want to get back to the new normal, we must approach it by a process that is gradual and that will not disturb the economic machinery of the country. —Altoona Mirror

BAN ON JAMAICA GINGER

Jamaica ginger has been placed under the prohibition ban by Commissioner Williams of the internal revenue bureau. The order becomes effective in ninety days or on February 18. It is sufficiently broad to cover this drug, no matter by what name it is sold.

The commissioner classifies tincture of ginger as an alcoholic preparation which may be used for beverage purposes and it therefore falls under the prohibition regulations.

The truth of the matter is that much more Jamaica ginger is sold for purely beverage purposes than for domestic use. And the fact that it can be purchased at most any store has made it a popular substitute for whiskey among those who seek the effects of alcohol.

But with the prohibition ban on it, Jamaica ginger will no longer be available as an alcoholic beverage, but must be obtained through the medium of prescription or by permit from the internal revenue bureau.

In due course of time all the sources of substitutes for whiskey will be dried up by the federal authorities. About the same time the unwise physicians who issue whiskey prescriptions indiscriminately and the druggists who fill these prescriptions will also find themselves at the end of their string. Then the nation will have the kind of prohibition that prohibits.

RED CROSS READY FOR ROLL CALL

Achievements of Past Year Warrant Support of People.

GREAT PEACE-TIME PROGRAM

Health of Country the Outstanding Feature — Disaster Relief Made More Efficient.

Its appeal based upon a record of solid achievement during the last year in putting under way its peace-time program, the Fourth Roll Call of the American Red Cross will begin this week. Throughout the length and breadth of the land and even in the far-off possessions of the United States, the American people will be given the opportunity to renew allegiance to their Red Cross through the payment of dues for the coming year. An adult membership of approximately 10,000,000 resulted from the Roll Call last year and preliminary reports from all parts of the country indicate that this extent of support will be maintained and possibly exceeded for 1921.

"The Red Cross comes to its Fourth Roll Call with its war task still undisturbed and its peace program rapidly developing," says Dr. Livingston Farrand, chairman of the Central Committee. "Never were the world and national needs so pressing and the corresponding opportunities for service so great. Wide-spread distress and sickness stare us in the face in Europe and the Red Cross is carrying on to the extent of its resources, in an attempt to answer the call for help. How permanent and far-reaching that answer shall be depends upon the aid and the conscience of the American people.

The Work at Home.

"At home the wounded and sick soldiers and sailors in hospitals and elsewhere are still numbered by the thousands. The Red Cross must stand by those who gave their best for their country and extend what aid and comfort may be possible.

"An attempt to build up the health of the country, which is the outstanding feature of the peace program of the Red Cross, is taking the energies of the organization. Demands for visiting nurses come from every corner of the United States and every effort is being made to supply that need, the filling of which is vital. The organization of Health Centers is opening up a new conception of community welfare everywhere. The new public philosophy of not merely curing the sick, but of keeping people well is opening limitless lines of possibility.

"The Junior Red Cross is developing in the school children of the country ideals and habits of sound citizenship which mean more, perhaps, than anything else for the future safety of our American democracy. Home Service is a necessary function of the Red Cross, for there are thousands of families of soldiers which are still in need of friendly counsel and relief. Along its historic line of activity and usefulness the Red Cross is standardizing its Disaster Relief, so that there shall be in constant readiness a trained organization ready upon a moment's notice to carry its work of mercy anywhere."

Every One Should Join.

The Fourth Roll Call will begin generally throughout the country on the second anniversary of the signing of the Armistice, and continue, wherever necessary, to Thanksgiving Day, November 25. For many weeks National Headquarters, the fourteen divisions and the over 3000 Chapters have been organizing Red Cross workers everywhere for the big task that is involved in re-rolling the million of members. That the success of their efforts may be insured, churches, service men's organizations and fraternal and similar bodies are giving generous co-operation.

Not the least important assistance that is being given is that of thousands of societies of the foreign born and the foreign language press which in this way are giving evidence of appreciation for the wide variety of service rendered the immigrant population by the Red Cross.

Preparations for the Roll Call include a novel series of posters, for the most part in text form, describing the peace-time work of the Red Cross in its many phases. An innovation in this Roll Call will be a membership certificate presented to every payer of dues, whether the dues be \$1 for Annual Membership or \$100 for Patron Membership, as well as a 1921 membership button and window membership flag.

THREE MILLIONS AIDED IN FRANCE

The American Red Cross expended \$51,000,000 during the last fiscal year in finishing up such relief activities in Europe as could be consistently discontinued.

In closing its relief work in France and Belgium—the most extensive of all its overseas activities—the American Red Cross furnished supplies to 3-65 villages and directly benefited 3,030,000 persons by gifts, or sales at nominal prices.

The reading of this pleasant, will please when repeated ten times.—Horace.

THE AMERICAN LEGION

(Copy for This Department Supplied by the American Legion News Service)

PASSES ON LEGAL MATTERS

Robert A. Adams, Judge Advocate, Rose From Rank of Private to That of Major.

Robert A. Adams, recently appointed national judge advocate of the American Legion by the national executive committee, rose from the rank of a private in the Eighty-fourth division to that of major during his army career. Mr. Adams went overseas with the Thirty-first heavy artillery brigade and served in the Alsne-Meuse offensives. After the cessation of hostilities he was assigned to duty in the judge advocate general's office at G. H. Q. He served fourteen months in the A. E. F.

When Legion officials at National Headquarters at Indianapolis decided early in January that it was necessary to enlist the services of a legal adviser to thrust out the knotty problems of eligibility, interpretation of statutes affecting the Legion and other legal matters, Mr. Adams was appointed to fill the position. His appointment to the new position came as a result of efficient service as legal adviser after an amendment was made to the Legion constitution at the Cleveland convention, which authorized the creation of the office of national judge advocate.

Mr. Adams has practiced law since 1916 and is associated with a prominent Indianapolis law firm. He is a graduate of Washington and Jefferson college and also attended Harvard law school. He is twenty-nine years old. The duties of the office consist in the supervision of the legal department of the Legion, the employment of counsel in law suits in which the Legion is involved, interpretation of legal questions, and the adjustment of questions of eligibility.

TO BUILD WOMEN'S AUXILIARY

Legion Administrative Machinery to Be Used in Safely Launching the Branch Organization.

Assurance that the administrative machinery of the American Legion will be used without stint in an effort to build up the Women's auxiliary, has been given by National Commander F. W. Galbraith, Jr. It is expected that the auxiliary will take charge of its own destinies next spring, with the holding of the first national convention of the women's units.

"All doubts and misgivings in regard to the future of the Women's auxiliary of the American Legion were removed, and a system of orderly expansion in state departments and a national organization was provided for by the Cleveland convention," announced Mr. Galbraith.

"We propose to offer the aid of our organization in building up the auxiliary, but we are not going to meddle with its policies so long as our recognized ideals and purposes are carried out. The Cleveland convention voted to let the women swim without water wings. It authorized state executive committees of the Legion to call state conventions and to establish department organizations of the auxiliary, killing the rule which made necessary the establishment of a total of units equivalent to 50 per cent of the number of posts in the department."

AIDED IN GROWTH OF LEGION

Rev. John W. Inzer, National Chaplain, Long Identified With Activities of Veterans' Organization.

As national chaplain for the existing year the American Legion has in Rev. John W. Inzer, pastor of the First Baptist church of Chattanooga, Tenn., a man identified with the activities of the veterans' organization since its inception. Dr. Inzer not only was one of the men who initiated the formation of the Legion, but during the early days of its growth aided the work by traveling over the country and making addresses as a member of the national executive committee.

Dr. Inzer, who was born in Hamilton county, Texas, January 6, 1889, entered the ministry at the age of nineteen, his first pastorate being in Birmingham, Ala. He volunteered his services as chaplain in the army after the war broke out and served with the Fourteenth infantry in the Northwest and at Camp Dodge, Iowa, where he was senior chaplain for three months. After the armistice he moved to Camp Grant, Ill., where he served until March, 1919. He married Miss Marie Smith of Alabama in December, 1918.

Look Into This.

If things don't come your way, perhaps it's because you are not in the right place.—Boston Transcript.

FIRST BAPTIST CHURCH

L. S. Snell, pastor. Services for the Lord's Day, November 21st as follows: Bible school 10 a. m. Morning worship 11 a. m. Subject "Seeing as God Sees." Evening service 7:30. Wednesday evening prayer and Bible study.

Thursday, the 25th, the Thanksgiving service will be held in this church at ten a. m. sharp. Rev. Snively, pastor of the West Side M. E. church will preach the sermon. To all of these services you are invited.

LUTHERAN CHURCH

E. Roy Hauser, Pastor. Sunday school 9:15. Morning worship, Holy Communion 10:30. Evening worship with sermon 7:30. Subject "Christ's Call and Plan for the Christian." Following the sermon the Holy Communion will be administered. "Quiet Hour" Wednesday evening at 7:30. You will find a cordial welcome at all these services.

A Shoe for Every Horse

National Chain Improvement Service. THERE are more horses to day than there ever were in spite of the idea that the horse is being put out of business by the automobile.

"There is a new interest being played in the horse," says Mr. Frank Saunders, V. P. American Shoe & Tire company, "and a new era of architecture shows that there are about 27,500,000 of horses in the country as against 2,000,000 in 1910 despite the fact that we transported 2,500,000 to Europe during the war."

"We are sure that the horse will be a permanent part of the motor. Statistics prove that it costs 17 cents a hundred pounds to transport goods by motor truck with a load of six tons, and eight cents every time the motor stops. By horse it costs 4-23 cents per hundred pounds.

"That makes us have horse shoeing departments at our colleges we may run out of good scientific horse shoes. The boys who used to want to learn the blacksmith trade, are now eager to work in the garage and machine shop, but modern science has kept up with the procession.

"Ninety-five per cent of all shoes today are made by machinery, all made to size and type so that the skillful blacksmith has very little remodeling to do in fitting a shoe.

"There is a new interest being played in the horse," says Mr. Frank Saunders, V. P. American Shoe & Tire company, "and a new era of architecture shows that there are about 27,500,000 of horses in the country as against 2,000,000 in 1910 despite the fact that we transported 2,500,000 to Europe during the war."

ALWAYS REMEMBER

When considering your health, purity and freshness should be your supreme aim. We do not know of any medicinal preparation that can equal the power and effectiveness in regulating the bowels, stimulating the liver to action, flushing the kidneys, sweetening the stomach, or cleansing and enriching the blood, than

BULGARIAN BLOOD TEA

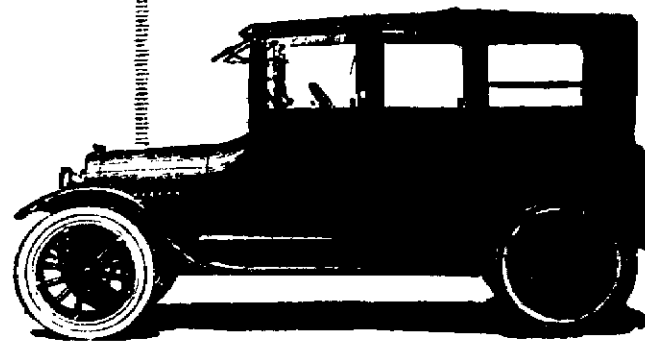

This pure all-herb preparation is the favorite family medicine in millions of happy homes; physicians and druggists heartily recommend it. Sold at all druggists and grocers everywhere.

For Holiday Time

An unusually pretty breakfast cap is here offered as a suggestion for a gift. It is a spirited model made of taffeta silk and almost covered with crisp, platted frills of taffeta ribbon. Such a cap requires a crimoline support and a lining of thin silk.

Holiday Red and Green

This Christmas candle shade is made of red and green crepe paper and decorated at the top with a spray of holly and holly berries. The paper is cut in petals, the under ones in red and the outside ones in green.

For Holding Pins

The baby will be served and his mother delighted at Christmas time with little gifts convenient for holding safety pins. A doll and a basket are shown in the picture each suspended by ribbons for hanging them. Little rings attached to the feet, hands and belt of the doll accommodate pins of several sizes. There are assorted pins in the basket.

To Welcome the Baby

Two lovely gifts, with which to welcome the baby, are suggested. They are a little cap of georgette crepe and a silk-lined and ribbon-trimmed basket containing everything the baby needs for his toilette.

At least TWO in every FAMILY is our slogan for the Fourth Red Cross Roll Call. 11/20-1tc

NEWS OF OUR NEIGHBORS CURWENSVILLE

Henry Hartzfeld, a man well known to Curwensville people, died at the home of a relative in DuBois Thursday afternoon, after suffering an illness of several weeks duration. He was aged between seventy-two and seventy-three years. He was a resident of Brady township about all of his long life, having followed the occupation of that of farming, being the owner of one of the finest and best producing farms in the western end of the county. He was a brother of Charlie Hartzfeld, who lives on the old David Fleming farm, two miles northwest of this place. Deceased was a man who stood high in the esteem of his neighbors and with all of whom he came in contact in a business manner. He was an honest man, and his word was as good as his bond any day or at any time. For many years he was connected, as a member, of the German Reformed church. His funeral will be held from DuBois on Sunday, the body to be brought to the cemetery at Luthersburg for interment.

Mr. J. S. Richards of the South Side, left yesterday for Indiana, where she will spend the next few weeks visiting with her daughter, Mrs. Elva Remala.

The members of the Rosary society connected with the St. Timothy Catholic church, were entertained at the home of Mrs. T. B. Johnston, along the Grampian road, Thursday evening. As a social event it was a success in every particular, and those who were present spent a very enjoyable evening. Before departing for their homes the guests were served with an abundance of appetizing refreshments.

A lecture under the auspices of the W. C. T. U. was held in the lecture room of the Methodist church last evening. The name of the lady who did the speaking The Progress representative was unable to learn at this writing, suffice to say that she gave a very interesting and instructive talk, and all those who were unable to be present missed something that would have proven very beneficial to them along the lines of work that the organization of the W. C. T. U. is engaged in.

The "Sugar Bowl" which has been closed from the date that the sheriff disposed of the stock in order to satisfy the claims of creditors, will be reopened for business again the beginning of next week. The parties who purchased the stock and fixtures being in town the past few days getting a line on the trade, and ascertaining just what goods could be handled at this time of the year to the best advantage.

Curwensville people reading The Progress last evening were surprised to see the announcement of the death of Mrs. S. V. Wilson, which occurred at her Clearfield home at an early hour Friday morning, not many of them even knowing that she had been ill. Deceased was born and raised in this place and was the second daughter of Dr. and Mrs. H. P. Thompson. She remained a resident of Curwensville until after her marriage to Smith V. Wilson, and became a resident of Clearfield. Her father, Dr. H. P. Thompson, was killed on September 14th, 1866, from being thrown from a sulky at a by-road which led down to the river from the main road near the Isaac Caldwell farm. Her mother passed away on May 9th, 1906. She is survived by one sister Mrs. George B. Orsady, of Huntington, and one brother, John I. Thompson, of this place and one son Cecil Wilson, of Clearfield. She was a granddaughter of John and Eliza Irvin, who were among the first settlers of Curwensville, and a niece of the late Col. John Irvin.

Salvatore Genese, of New York City and Miss Concetta Ancello, a daughter of Francis Ancello, residing on Filbert street, this place, were married at the home of the bride's father on Thursday, November 18th, 1920 by John A. Dale, J. P. The newly weds will make their future home in New York City.

Rhoda Rebekah Lodge, I. O. O. F., at a regular convocation held Thursday evening in Odd Fellows hall, elected the four prominent officers of that body to serve for the ensuing term: Noble Grand, Mrs. O. F. Smith; Vice Grand, Mrs. John Houpt; secretary, Miss Mae Schively and treas-

GREAT LAKES STRING QUARTET.

The Great Lakes String Quartet, which entertained President and Mrs. Wilson on two voyages across the Atlantic on the U. S. S. George Washington, is a notable musical attraction. The quartet was organized at Great Lakes Naval Training station, Great Lakes, Ill., where all the members of the organization belonged to the same company and regiment. By special permission of the navy department the quartet made a coast-to-coast tour of the United States in behalf of the Navy Relief society, the entire proceeds going to the relief of families and dependents of sailors and marines. The organization appeared in the leading universities, educational and musical centers of America and its fame grew rapidly. The tour had progressed well into the eastern cities when by a special request of the secretary of the navy the quartet was ordered to accompany President Wilson on his first trip to France.

Many programs were given by the members of the quartet on board the president's ship, the U. S. S. George Washington, for the presidential party and their art was highly recommended by the president. The members made six transatlantic trips on the George Washington between America and France before they were mustered out of service.

The concert given by the quartet will be delightful both to those who are students of chamber music and those who "just like music." The program includes works of the best modern composers as well as those of the old masters.

The annual Union Thanksgiving services will be held this year in the large congregational room of the Methodist Episcopal church, the principal sermon being preached by Rev. John Cameron, pastor of the First Baptist church, assisted by the other ministers of the town. The offering that will be taken up will be donated to the Clearfield hospital.

Yesterday evening Mr. and Mrs. Herschell Elder were treated to a miscellaneous shower by a number of their friends, at the home of Mr. Elder's mother, Mrs. Alice Elder, on Susquehanna avenue, South Side. The young couple received many useful and valuable presents, one especially, a solid silver bread plate, the gift of four or five intimate friends. The evening was spent very enjoyable by all and when the guests were departing for their homes all wished Mr. and Mrs. Elder many more happy years of married life.

Mrs. Frank L. Arnold, who spent the past three or four months with her daughter Mrs. R. R. Kramer, at her home in Maryville, Tennessee returned to her home in this place on Thursday evening. Mrs. Kramer and her two small children accompanied her to Curwensville and will spend several weeks with her father and mother.

The Live Wire class of the M. E. Sunday school is starting its winter campaign for members. The class has made arrangements for some very interesting Sunday morning topics and the various lessons will be taught by some of the town's ablest speakers. These lessons will be well worth hearing. The class also is making preparations for an enjoyable social season. Any man not otherwise affiliated will be welcomed at these Sunday morning discussions. The class meets at 9:45 in the M. E. church.

They Bought Nash Cars

Now we have the following second hand cars for sale:

A WOMAN DOCTOR

says "Eugenics is a necessary factor in the future of the race. The average American girl is unfit for motherhood." This may be true, but if weak and ailing girls passing from girlhood to womanhood would only rely, as thousands do, upon Lydia E. Pinkham's Vegetable compound—that simple remedy made from roots and herbs—to restore the system to a normal, healthy condition, it would cause many ills from which they suffer to disappear, so that motherhood might become the joy of their lives. Adv.

THE eyesight of your children is a practical matter that should engage your immediate and earnest attention. If their far vision is incorrect it will interfere with their conception of the great world they are examining with so much curiosity. If their near sight is affected they cannot learn their daily lessons. Have their eyes examined.

New Fossil Beds Discovered.
 What is pronounced by scientists as one of the most perfect fossil beds in the United States in respect to preservation, has been uncovered in the mountains near Kemmerer, Wyo. The fossils are those of fish bodies and represent more than a dozen distinct types, several of which, it is said, have been hitherto unknown to the scientific world. The entire bodies, in several cases, are intact, and the bones and tissues, usually obliterated, are clearly definable.

The Yellow Sea.
 The Yellow sea is an arm of the Pacific ocean, on the northeast coast of China. Its length is about 620 miles; its greatest breadth about 400 miles. It is very shallow, and obtains its name from the lemon-yellow color of its water near the land, caused by mud suspended in the water from the inflow of the river Hoangho and Yangtseling.

When There is a Drought.
 When in need of rain in Germany, farmers get out a complicated device and sprinkle the ground. A number of sprinklers attached to one long feed-pipe are drawn across a field. A pump supplies them with water and so a whole field may be watered at the same time.

Clung to Coats of Arms.
 George Washington used, on his seal and bookplate, the English arms that had been in his family for generations. Even the Quakers among the early settlers, although they advocated simple, austere living, and abandoned plumes for their hats and lace for coat sleeves, would have considered it a renunciation of an inherited right, like relinquishing their family names, to give up the coats of arms granted to their ancestors.

Save Telegraph Poles.
 Of 1,558 telegraph poles in the Montgomery-New Orleans line, which were pressure-treated with a light creosote oil, 1,040 poles were still sound after 10 years, says the American Forestry Magazine. In 91 per cent of the cases of decay, the fungi had entered the wood through checks and shakes.

Mesopotamia's Old Glories.
 Nebuchadnezzar's vast irrigation system, which once watered all Babylonia, can still be easily traced for miles about Bagdad. One giant canal, the Narawan, runs parallel with the Tigris for nearly 300 miles; it is 550 feet wide, and all about it the takeoff and laterals may still be identified. Herodotus said he found a "forest of verdure from end to end" when he visited Mesopotamia.—National Geographic Society Bulletin.

Class No. 1 of the Lutheran Sunday school spent a most enjoyable evening as the guests of Mrs. Elizabeth Watson and her daughter Mrs. Thompson and family made it an occasion long remembered by the participants with music and conversation. The hours quickly passed and not the least enjoyable were the most delicious refreshments.

WOMEN OWE THEIR POWERS OF ATTRACTION

To Good Health
 We all know women who are pale, thin, devitalized, always looking tired and worn, with headaches, nervousness and "the blues." Contrast the attractiveness of such women with the cheerful, full blooded, rosy cheeked, vigorous, energetic class, whose work is a pleasure and every step buoyant with health and vitality. Then choose for yourself to which type you had rather belong.

Many women in this city have been transformed from the former condition to the latter by Vinol, the cod liver and iron strength-creator and body-builder. It quickly enriches the blood and increases the supply of red blood corpuscles, enabling it to carry strength, health and vitality to every part of the body.
 Ask your druggist for Vinol and do not accept any substitute.

Steel Pipe

We have a full stock of National Steel Pipe, including practically all sizes of Black up to 6 inches, and Galvanized up to 2 inches.

Constipation

THERE IS NOTHING equal to Chamberlain's Tablets for constipation. When the proper dose is taken their action is so agreeable and so natural that you do not realize that it is the effect of a medicine. These tablets possess tonic properties that aid in establishing a natural and regular action of the bowels. Chamberlain's Tablets have cured many cases of chronic constipation.

Chamberlain's Tablets

Hard "Situation."
 A busy chauffeur who recently brought the frame of a big truck from Detroit to Youngstown rode part of the way sitting on the gas tank, but the seat was so hard he soon became tired of it. "Ah don't see how you could stand it, Henry," a friend observed. "Stun it," Henry replied. "Mah goodness, dat's jes what Ah couldn't do nothin' else but."

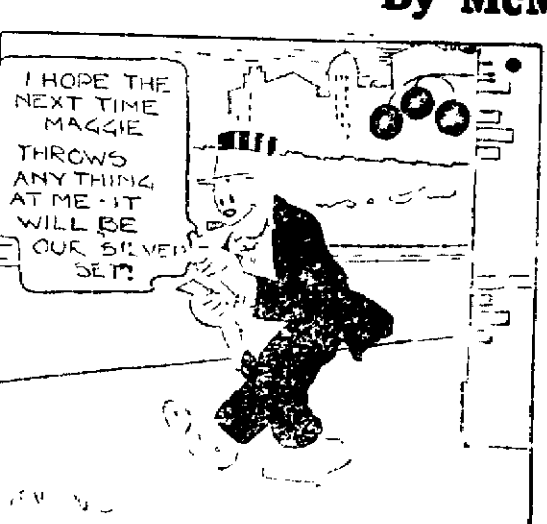

Quick Printing
 To celebrate the advance of the printer's art, particularly its increase in speed, a Carson McCollie Bible was wholly printed and bound in 12 hours in 1877. Only 100 copies were struck off.

But We Less Forget.
 Doctors are fond of telling their patients for a run. In the majority of cases a work done would do them more good.—Don't say.

Intelligent People.
 Locke's "Essay on the Human Understanding" refers to a person who had the faculty for answering questions correctly. When the governor of Brazil was introduced to it he asked it a bird: "What do you do here?" "I look after chickens," was the ready reply. "You look after chickens?" queried the governor, with a burst of laughter. "Yes," returned the bird, "and I know how to do it," at the same time clucking like a broody hen.

**Says Fred
To Bill.**

"I wonder how many bushels of peanuts we'd better roast today. It looks as if it was going to be a good day and there will be a big crowd uptown tonight."

**Says Bill
To Fred.**

"Just start the roaster and let 'em roast to the queen's taste. I expect we'll sell a bunch of 'em tonight. Every one seems to have the 'gimme-a-bag' habit these days."

COMPULSORY ATTENDANCE ENFORCED

The board of school directors say that this law must be obeyed to the full extent as was shown on last Monday when they, thru their attendance officers, H. F. Reese, arrested two fathers of different families and had them before Squire Jno. M. Bain for refusing to send their children

to school according to law.
We have heard parents say that this law cannot be enforced, that it is only meant to scare. We say send your children to school, obey the law, for in so doing you will save the disgrace of arrest and expense of the fine and cost.
H. F. REESE
Truant Officer

**YOU LOVE
LIFE MORE**

Take on a Different Color When Your Blood is Rich and Free from Poisons

TRY TAKING PEPTO-MANGAN

If you feel listless and depressed, our blood is changed and sluggish.
Without knowing why, you find yourself getting unhappy. You go around day after day half asleep. Interest in what is going on around you lags and life becomes dull. The beauty of radiant complexion, lively flowers and the entrancing merriment of life you miss entirely. Living, eating, sleeping, become more or less of a bore.
That is what clogged, sluggish blood does to you. It poisons your thoughts, you are only half alive.
You need a good blood-cleansing tonic. Take Pepto-Mangan for a few weeks and notice the big improvement. Pepto-Mangan is an agreeable tonic and is heartily endorsed by physicians.
Your druggist has Pepto-Mangan in both liquid and tablet form. Buy whichever you prefer; one has exactly the same effect as the other. Make sure you get genuine Pepto-Mangan. Ask for "Gude's" and look for the full name, "Gude's Pepto-Mangan" on the package.

INFORMATION

Your feet, if normal, should know no aches or pains.

There is a Dr. Scholl's Foot-Easer for every foot trouble.

Let us demonstrate to you the vital importance of permanent foot comfort and the means of securing it. This is

A weakening of the arch across the ball of the foot produces callouses, corns and cramps there. Dr. Scholl's Anterior Metatarsal Arch corrects the cause.

Dr. Scholl's Foot-Easer corrects weakness in the long arch spanning from heel to ball of the foot—tenses the feet, body and nerves; relieves overstrained muscles.

**Dr. Scholl's
Demonstration Week**

A graduate Practipedist—a foot expert specially trained in the famous corrective methods devised by the universally recognized authority, Dr. Wm. M. Scholl, which have made millions of sick, aching feet normal and healthy—is at your service here.

Have you painful corns, callouses or bunions? Has the springiness gone from your step? Are your toes cramped? Do your feet perspire excessively? Are your heels tender? Do you have shooting pains up the legs? Let our Practipedist examine your feet, through the hose, at no cost to yourself. He will tell you just what your trouble is, what causes it and how it can be corrected.

Be sure to come in THIS WEEK for this demonstration and know the joy of foot comfort. Be quick to meet in comfort the type of shoes that you prefer.

Don't keep up to the point of wearing out your feet. Get Dr. Scholl's Foot-Easer.

Dr. Scholl's Elastic Hose supports aching feet and relieves the pressure of the shoe. Prevents the condition of corns.

Tonight Closes The Special Week

But we will have our practipedist here at all times to set your foot troubles at an end.
